We also supply...

Our History

Sheds N Chalets is one of Wales's largest manufacturers of sheds, chalets, cabins, workshops, playhouses, kennels, greenhouses, garages and much more, all of which can be made bespoke to your requirements.

We are a family run business, established for over 20 years and are able to offer our customers the satisfaction that they are not only getting a top quality building, but also value for money to, as we design, manufacture and construct in house cutting out the middle man. In meeting these needs, we have developed a high level of expertise, establishing a leadership position for our company.

We manufacture our buildings using top quality Swedish kiln dried redwood, which has been cut from sustainable managed forests and therefore is environmentally friendly.

Our sales staff are very knowledgeable and are here to help you, they are not on commission, so you can come and relax whilst browsing over 30 timber buildings, aluminium greenhouses, concrete garages and many more garden items we have on display.

When you choose us, you really are receiving...
